Our vision is to provide students with the confidence, skills and ambition to achieve a successful and productive life. We aim to ensure they leave us with the opportunities and are able to become positive members of their communities. To do this, we have 3 principles that underpin our policies, practices and everything we do:

- Everyone can learn, achieve and has the potential to be successful
- Positive relationships are key to success and are underpinned by mutual trust, respect and caring for one another
- We have high expectations in everything we do

## INTRODUCTION – LEGISLATION BACKGROUND

### Role of the provider

The school has a well-equipped team to make judgments about local risks, manage challenging behaviour, and keep children safe is an important element. Staff training, support and knowledge is therefore critical to this success. The school building has a fob security system which means in order to gain access and leave the building, you have to have a fob in order to make this happen. This minimises the possibility of pupils absconding or exiting the building without permission.

It is acknowledged that there are limitations of mapping in capturing a 'dynamic picture' but considers that such mapping could play a useful part in the wider assessments of risk. The school location assessment should be kept under review and amended to consider any new risks as these are identified. The annual update will need to be proportionate and will not usually need to be carried out at the level of the initial assessment.

## ACCESSIBILITY OF LOCAL SERVICES

The schools additional site 'The Mission Hall' is located at Gaston Green, in the village of Little Hallingbury which is approximately 2.8 miles from the main school site in the town of Bishops Stortford.

and 2.6 miles from the town of Sawbridgeworth.

The building is situated on the A1184 and has a small drop off area to the front with a layby for staff and visitor parking opposite the building.

Little Hallingbury is a small village and a civil parish in the Uttlesford district of Essex, England.

Little Hallingbury parish is on a high rise of ground and contains the small settlements of Gaston Green, Wright's Green and Mott's Green to the south of Little Hallingbury village. It is bordered at the west by the River Stort over which are the Hertfordshire parishes of Sawbridgeworth and Thorley. The parish of Hatfield Broad Oak borders the east, Hatfield Heath and Sheering the south, and Great Hallingbury the north. The M11 motorway runs north to south through the parish.

## Community

The parish church of St Mary the Virgin on Wright's Green Lane in Wrights Green is a Grade II\* listed church dating to the 12th century, with flint rubble, tile and Roman brick walls, and a 19th-century bell turret with an octagonal spire; the associated Church of England voluntary aided primary school is also on Wright's Green Lane. Little Hallingbury village hall is on the A1060 Lower Street in Wright's Green. Further south on Lower Street beyond the M11 is a site with an equestrian centre and a MOT test centre. The George Inn on Latchmore Bank is the village public house, a Grade II listed timber framed and plastered building dating to at least the 17th century.

Little Hallingbury Cricket Club represents the civil parish of Little Hallingbury, with its home ground at Gaston Green. The club plays in the Herts and Essex League, and fields Saturday, Sunday, mid-week and junior teams.

Little Hallingbury Mill, to the west of Gaston Green, is a Grade II converted watermill, which today is a small hotel and restaurant. The current mill was built in 1874, although there was milling on this site for many years[quantify] before it was converted to a hotel. Although not in commercial use, the mill machinery is in working condition.

Hatfield Forest in neighbouring Hatfield Broad Oak has been a Royal Hunting Forest from the time of the Norman kings. The forest is open to the public and covers 1,049 acres (4 km<sup>2</sup>) of woodland, grassland with trees, lake and marsh. Portingbury Hills in Hatfield Forest is suggested to be a defended settlement or farmstead dated to the Iron Age. According to the National Trust "The main rectangular mound is approximately 100 by 70 feet (30 by 21 m) and is surrounded by a ditch 25 to 35 feet wide, with a flat top."

## SAFEGUARDING CONCERNS

There are no major concerns about the location in which the additional site is situated. There are very low levels of crime with only 4 being noted in May 2020. The area is not highlighted as an area of concern.

There are no concerns of young people being drawn into gang crime or anti-social behaviour in the area because of the locality of the school. The buildings location does not increase the potential for pupils to be targeted for sexual exploitation, the area in which the Mission Hall is located has not been an area of concern at any local multi-agency CSE, Missing and Trafficking operational groups where information is collated.

Current areas of identified risk are low to medium risk. The overall risk of the location of the school is assessed as being Medium risk due to the nature of the students that may be on role and their potential behaviours.

The main identified risk would appear to be pupils absconding from the school. The area is busy with accessible travel links. Therefore, the staff would be vigilant of this behaviour with appropriate staffing ratios, monitoring in place and risk assessments completed for individual pupils attending the school. Although this risk has been minimised with the use of fobbed and an intercom system, where you can only gain access and exit the building if you have a fob. The office building next door to the school is a fobbed entrance, however is an exit button exit – so staff need to be aware that the pupils can exit that building without a fob.

<b>Roads</b>  Crossing the road may be a risk to young people if they do not cross safely. The road in front of the school is a busy road.	Pupils are competent to cross the road and can go out independently and the road does not pose any additional risk to their day to day activities. Drop off and pick up of the pupils to and from the school are to be undertaken by the cars pulling into the front of the school – so they do not have to cross the road to gain access to the school.	1	2	3
